

Case Studies - Tenant Representation

Digital Park

lenovo™

The Challenge

Lenovo instructed CBRE on a worldwide basis to acquire new office space for their new (from IBM) independent units. Due to the undersupply of office space in Bratislava a temporary solution had to be identified before a final accommodation in the size of 6,000 sq m.

The Solution

CBRE identified an appropriate temporary solution of approx. 3,000 sq m for 6 months. Subsequently we mediated the transaction of 6,000 sq m office space in Digital Park. Lenovo is fully operational since the end of the year 2006.
